

Leak Detection & Automatic Water Shut-Off

Protect the insurability of your home or business by installing a WaterCop® system.

Approximately 25% of homeowners have experienced water damage from appliance leaks and broke or frozen pipes.

WaterCop® Automatic Water Shut-Off systems are a time-tested tool in reducing the chances of major household plumbing leaks. WaterCop® provides long term protection and can prevent the need for insurance claims due to most common plumbing leaks.

Talk to your insurance provider about available discounts when you install a WaterCop system.

The proven leader in household leak protection: **WaterCop® is there when you're not.**

WaterCop® Leak-Detection and Automatic Water Shut-off:

Protect the insurability of your home or business by lessening your risk of filing an expensive water damage claim. Repeated or large insurance claims are costly. Not only do you run the immediate risk of increased premiums, multiple claims will expose you to potential loss of affordable coverage or even policy cancellation.

- Around-the-clock monitoring of appliances and pipes that can typically leak and allow water accumulation causing substantial water damage.
- Perfect for primary residences and critical for second homes, vacation homes, or commercial buildings which are unoccupied at night or for periods of time.
- Satisfies insurance companies' guidelines that require water damage protection devices for vacation and second homes.
- Communicates with most home automation, home security, and emergency dialer systems for complete water leak notification and flow control.

Learn more about the entire line of WaterCop® systems and products for residential and commercial properties.

The WaterCop family of products provide homeowners with round-the-clock indoor leak protection.

WaterCop Classic

The first generation basic leak detection and automatic shut-off system.

WaterCop Pro

The next generation WaterCop System. Pro adds valuable features like addressable sensors, an improved user interface, and flexible installation options.

SmartConnect

Receive mobile alerts and control your WaterCop system using the WaterCop app on a phone or tablet. SmartConnect is compatible with Classic, Pro and Leak Stop+ systems.

WaterCop Leak Stop+

Leak Stop+ detects plumbing leaks at a single location and automatically shuts off the water supply. They are ideal solutions for water heaters, recirculation pumps and softeners.

WaterCop Z-Wave

Z-Wave integrates with other Z-Wave automated home devices such as alarms, and environmental controls.

WaterCop Large Valve

With the WaterCop Large Valve configuration, you get the perfect solution for larger water supply lines commonly found in commercial buildings and larger residential homes.
